PROSPECTS FOR SILVER.

The telegraph has brought some fresh assurances that President Harrison was not going to give himself away by making any promises that he could not fulfill. More than once, too, since his inauguration assurances have been supplied that he means to live strictly up to the platform on which he was elected. This, says the Salt Lake Tribune, we have expected from him from the first, because that is a part of the character he has made during twenty-five years of prominence before his countrymen, and, better still, it is the reputation which he bears among his near neighbors of all shades of politics. This supplies an assurance to the country that as soon as Congress can legislate on the silver question their legislation will meet with hearty concurrence on the part of the Executive. There has been no trouble for three years, so Senator Stewart says, about passing any needed legislation, except opposition from the White House. Mr. Cleveland took his ideas from Mr. Manning, and after once absorbing them he was not content to entertain them himself, but he wanted to force his party in Congress to adopt them. Hence, for three years past, there has not been one step of progress in the matter. We confidently expect that by next January silver will be practically on the same plane with gold under the law, and that the bill, when it goes to the President, will meet with prompt approval. In the meantime we have not lost hope that Secretary Wadsworth in anticipation of such legislation, will coin the maximum instead of the minimum of silver provided under the Bland law. If he would do that, silver would rise ten points before Congress assembles in December, and the difference to wheat and cotton growers of the country would amount to an advance of \$60,000,000 on the year's crop.

There is a prospect of a lively row among the Oklahoma boomers over the clause in the bill which prevents those from acquiring title who violate its provisions by entering upon lands before the country is opened by proclamation. A secret society of old boomers threatens death to any one giving information which will lead to their dismission. Very likely the new settlers will be as numerous and strong and as well able to look out for themselves as the old boomers, and they will have properly constituted authority behind them. If the truth were known about these boomers, probably many of them would prove to be a class of frontiersmen who have made the country a great deal of trouble first and last by their encroachments upon Indian reservations, stirring up of border wars and massacres, and general indifference to property rights. There are undoubtedly lots of good men among them, but in such cases the worst element is apt to make the most noise and trouble.

It is assumed by Bismarck's organ, the Cologne Gazette, that Steubel, the newly appointed German Consul to Samoa will begin his administration by demanding satisfaction of Mataafa for the killing of German sailors and marines. If a money indemnity is demanded the debt will be made a lever to obtain virtual ownership of the islands. The Berlin Conference should have something to say regarding that matter. What business had German forces to land there. It was merely an illegal game of force in which they got the worst of it. There is no claim for indemnity that should be recognized by the other members of the conference.

The report of the Senate Committee on Mines and Mining regarding the cutting of scrub timber promises justice to the miners and gives a good slap to overzealous officials, who have sought to make fees by bringing vexatious suits against persons engaged in developing the mineral resources of the country.

The gunboat Yorktown has been delivered to the naval authorities at League Island, and it was expected Secretary Tracy would formally accept her yesterday. She is all complete except her electric light plant, which will be done in ten days.

Unless their present plans are changed Mr. and Mrs. Cleveland will go the Adirondacks early in the summer, taking possession of the little log cabin where they lived the first year they were married on Upper Saranac Lake.

The Cologne Gazette says that owing to the attitude of America it is natural that Germany should seek a full agreement with England before the Samoa Conference meets.

Harriet Beecher Stowe's mind is failing. She is said to be a mere child mentally.

COMMISSIONER TANNER.

He Will Not Allow Veterans of the Union to Suffer.

CHICAGO, March 24.—The News' Washington special says: "I believe in giving every Union soldier, his widow or orphan, who is in need, a pension, and in giving it to him as quickly as possible," said Corporal Tanner, the new Commissioner of Pensions. Corporal Tanner has long been a pension liberalist of the most pronounced type. During the recent campaign he stumped Indiana and declared in almost every speech that if he had the power there would never be the necessity for an ex-Union soldier or sailor, or his widow or orphan, to accept public or private charity. He would make them all independent out of the public treasury. No one knew better than General Harrison these statements, and the appointment of Corporal Tanner to the position where the laws already on the statute books can be construed to allow practically unlimited pensions is taken as a direct endorsement of the sentiment.

For three months the issue of pensions has been almost suspended. The Commissioner has directed that the daily lists of pensions allowed be no longer published, as he did not want comparisons with the present work of the bureau and that of six, eight and ten months ago, when the soldier vote was being sought. Representative Cheadle, of Indiana, who knows Corporal Tanner intimately, said of him to-day: "He will give a pension to every one who needs and is entitled to it, providing Congress will give him the money. He already has very great latitude and can allow new pensions and increases with almost unlimited liberality."

AMBITION SAGEBRUSHERS.

Nevada Citizens Who Desire to Represent This Country Abroad.

WASHINGTON, March 24.—There are three Nevada applications for the position of Minister Resident at the Sandwich Islands. R. M. Daggett, who formerly held the position; ex-Governor Kincaid and Samuel Davis.

The Nevada delegation have held several meetings and are quite puzzled as to which of the candidates they will unite upon, although it is believed that Davis was agreed upon this afternoon.

Herman Muller, of Nevada, but now residing at Prague, Austria, is an applicant for the position of United States Consul at that place.

WILL KLEIN RETURN TO APIA.

Germany Evidently Thinks She Can Get Him.

BERLIN, March 24.—The Cologne Gazette says:

"Neither criminal nor civil procedure is applicable to the case of Klein in America. It only remains for Germany to bring evidence against him before a tribunal at Apia, including the American Consul. It may be assumed that when Her Steubel, the newly appointed German Consul, arrives in Apia, satisfaction will be demanded from Mataafa.

Grabbing Up Land.

HELENA (M. T.), March 24.—The land about Red Lodge, on the recently opened Indian reservation, was thrown open yesterday for settlement. Parties representing New York, St. Louis, Chicago, San Francisco and Helena capitalists were present, as well as Union Pacific and Northern Pacific attorneys.

The most extensive and easiest mixed coal lands in Montana are located at this point, and the result is that some of the land has been filed on as agricultural and coal land. The day was the busiest ever known in the history of the Bozeman Land office, the receipts from filings being \$76,000. From appearances it seems probable that there will be a contest over every entry made.

Offensive Partisanship Not Offensive.

WASHINGTON, March 25.—The Paymaster General has thus far refused to say anything for publication on the subject of offensive partisanship as a cause for the removal of Paymasters, but the Star to-night says: "On Saturday Wanamaker made a positive announcement to an unnamed member of Congress who had a very offensive partisanship that he was working to have removed, that the charge of offensive partisanship would not be regarded as sufficient cause for removal. Some other good reason would have to be given, and it did not matter whether or not that charge was attached."

The case of Spencer & Raker vs. D. M. Glester, involving title to a certain tract of land in Surprise valley, was tried in the Superior Court of Modoc county, Cal., last week, and decided in favor of plaintiffs.

The Northern Pacific has secured control of the Wisconsin Central Railroad and through it an entrance into Chicago.

Prince Wilkes, the famous California horse, was sold in New York Monday for \$30,000.

A Conversation Between Man and Wife Cannot be Slander.

A rather important law point was decided Saturday in the Supreme Court of California in the case of Seeler vs. Montgomery. It was a suit for slander. Mrs. Seeler heard Montgomery and his wife talking together about her. She was an eavesdropper and heard the whole conversation. She brought suit in the Superior Court of Alameda county for \$3,000 damages, and got a verdict in her favor. The defendant appealed, and the Supreme Court reversed the decision of the lower court, holding, as its reason, that a conversation between a husband and wife about a third party is not slander.

Reno is to have a new Postmaster, of this we are pleased, as there is much delay in handling mails at that point, and complaints are numerous.—Sierra Valley Leader.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb 21, 1889.

Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or clinkers. One ton P. V. coal equals 3 cords common pine wood. Give it a trial and be convinced. Leave orders with or enquire of H. Sample, Depot Hotel or coal house, or at Nasbys, or of Phil Alliger, the drayman.

WHAT ON EARTH.

Is the reason people will not, can not or do not, see any difference in cheap nostrums put up by Cheap John houses or irresponsible quacks, of enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

The case of the Pamlico Mining Company vs. George Garrison occupies the attention of the U. S. Circuit Court at Carson.

The G. A. R. boys hereabouts are satisfied with Harrison's selection of Corporal Tanner for Commissioner of Pensions.

Wm. Levy, who has been below purchasing a large stock of Spring goods for the Palace Dry Goods Store, returned yesterday.

Five additional stamps are to be added to the Pamlico mill near Hawthorne. The company now employs fifteen men.

The weather clouded up yesterday and looked as though Nevada would soon be treated to more rain. It can stand considerable yet.

Proposals will be received until 12 o'clock m. of Monday next, April 1, 1889, for the construction of a two-story masonry roof building, to be erected upon the Nevada State University grounds.

Monday J. L. Stevenson consummated a sale with the Board of Insane Commissioners of an electric plant for the Asylum. It is for incandescent lights throughout, transmitted by storage batteries. This new light will be a great improvement on the old gas manufactured at the Asylum.

The official report from the North Occidental, says the Virginia Chronicle, notes a development of ore showing an average assay value of \$40 per ton. This is considered the most important discovery yet made in Silver Star district and the progress of explorations to determine the extent and value will be noted with interest.

The Virginia Chronicle says the report from Con. Cal. & Va. shows an improvement both in the quantity and quality of ore extracted last week, the bullion yield being above the amount required to cover operating expenses and a fifty-cent dividend. The prospect is favorable that the company will pay regular monthly dividends throughout the current year.

Begin to Believe it.

Many of the local railroad people in San Francisco who have pooh-poohed the idea of the Union Pacific building into California are now converts to the belief that the line will be constructed. So strong have been the recent telegraphic reports corroborating the first rumors of the Union Pacific in Northern California and Nevada that there is now little doubt that we are to have a new trans-continental railway.

Waste as Little as Possible.

The Reno Water Company has a force of thirty men cleaning out the Highland Ditch, and getting it ready for summer use. No water is at present running into the town's reservoir, so consumers should be as careful of the use of water as possible until the ditch is cleaned out, which will take about a week.

Bad Death of an Old C. P. Engineer.

Sunday night Pat O'Hare, for 20 years an engineer on the Central Pacific, but who recently entered upon the Ogden street-motor car service, met his death in that city by striking his head against an electric light pole while looking out from his cab.

A Beautiful Hedge.

B. E. Hunter has one of the finest hedges in this State planted on each side of his residence on Fourth street. This is what is known as the privet hedge and seems to be about the only kind that will flourish in Nevada soil and withstand the cold winters of this climate. The plant is evergreen, shedding its leaves in early Spring, and grows very rapidly. Mr. Hunter's hedge is only four years old and stands six feet high, some of the main stems being about two inches in diameter. After the first year or two it seems to do well without much irrigation, and it is almost impossible to kill it out. Mr. Hunter is now trimming his hedge, and will gladly give any person planting slips who will take the trouble to call at his residence and gather them. Mr. Hunter says he trims off enough slips each year to plant ten miles of hedge. This is a splendid opportunity for persons who desire to beautify their homes with hedge fences, and now is the time to secure them, as Mr. Hunter does not care to cut slips off after he has his hedge trimmed, as it spoils its appearance.

Sitting on the Safety Valve.

Many are they who have laughed at the story of the green steamboat fireman who sat on the safety valve to prevent it "leaking." Yet thousands are repeating his folly every day. They are troubled with blotches, pimples, eruptions, salt-rheum, boils, carbuncles, ulcers and old sores, and are contenting themselves with suppressing the symptoms without removing the cause. They sit on these safety valves by which Nature is driving out blood impurities, instead of using Dr. Pierce's Golden Medical Discovery, which cures by removing the cause, which is in the blood. It is a wonderful blood purifier and invigorating tonic.

Do you think the proprietors of Dr. Sage's Catarrh remedy would offer, as they have done for many years, a standing reward of \$500 for a case of catarrh which they cannot cure, if they did not positively know that the remedy will absolutely and permanently cure catarrh. Sold by druggists, at only 50 cents.

Southern Pacific Rumors.

A report is received in San Francisco that there is a possibility that the head offices of the Southern Pacific Company being removed to New York. The details of the annual reports of the Southern and Central Pacific Companies will not be made public until after the annual meeting of the Directors on the 4th of next month.

The members and friends of the W. C. T. U. are requested to meet this afternoon (Wednesday) at the room of the M. E. Church at half past 2 o'clock. By order of the President.

HARRISON AND BLAINE.

Cordial and Confidential Relations between the Two Men.

NEW YORK, March 24.—The Herald prints a fac-simile letter from Harrison to Blaine, which the latter seems to have carelessly left at a Washington hotel. Following is a copy:

INDIANAPOLIS, Feb. 1, 1889

MY DEAR MR. BLAINE: Your letter of the 21st received some days ago. It was both in its tone and in its conclusion very gratifying to me. I am sure you have read in the newspapers accounts of my life since that, which is a sufficient excuse for my delay in acknowledging it. I hasten to thank you for your expressed willingness to help Mrs. H. and myself any way you can. As to myself, I do not think of any matter in which I can now avail myself of your kindly proffered help.

The mail I now use sparingly for several reasons, and as I will be in Washington long enough before my inauguration to enable me to talk fully with you I will not subject you with the risk of a journey here unless it should be absolutely necessary. If anything should require it, however, I will not hesitate to avail myself of your friendly offer. I thought I had nearly everything settled in my own mind that required my attention before I reached Washington; but if the newspaper reports to-day as to Mr. Allison's position are correct, it may unsettle some of my plans.

I said to a friend to-day that if all the Cabinet offices could have been found in Alaska it would have promoted harmony in the party in the States. Maine, I believe, is the only State that has had no protest to offer. My health is good. I get out twice a day for a walk. It is a hurried run but it gives me fresh air and exercise. You must not forget yourself, for you will need all your strength.

With kind regards to Mrs. Blaine, I am very sincerely yours.

BENJAMIN HARRISON.

Proclamation Signed.

WASHINGTON, March 23.—The President signed the Oklahoma proclamation at 2:15 this afternoon. It was then sent to the State Department to be countersigned by Secretary Blaine and to have the official seal attached. Owing to the absence of Blaine and the State Department closing at 3 o'clock, the officials in charge decided not to make it public, but will do so Monday. It is understood that May 1st is named as the date of allowing settlers to enter the lands.

THE OLD RELIABLE FURNITURE HOUSE OF

John Breuner is well worthy of note, and we take pleasure in devoting to it due space and attention. Mr. Breuner has been engaged in this business for thirty-three years and conducts one of the largest business houses in California. He manufactures and deals in all kinds of furniture and bedding, and has established a most enviable celebrity for the excellence of the goods turned out by his house. He carries a very large stock, embracing all grades and kinds of furniture and quotes prices that defy competition. His goods are all first-class, made of the best material and first-class workmanship, and the people cannot find a more advantageous house to deal with. He carries a supply of photographs of all goods, which will be sent free of charge to any address, and by this method people at a distance can select goods at home as well as in person at his house, and may rest assured of being satisfactorily and fairly treated by him. This is a most convenient and pleasant method for those abroad, and we recommend a trial of it.
